

CEH TECHNOLOGIES LTD

Company overview

Who we are

CEH TECHNOLOGIES is an innovative manufacturer and designer of smart consumer electronics that enrich people's experience through the power of sound.

We've combined our passion for innovation, music, communication and technology to develop unique and truly wireless solutions with live voice translation and finest sound quality that will empower people to celebrate and create new experiences whilst connecting with others.

Our vision: Bringing revolutionary solutions to reality for a more interconnected and inspiring world.

Why we do it?

We believe in unlimited connection

How we do it?

We remove barriers.

What do we do?

We create the highest quality hardware and software filled with revolutionary solutions, which enable unlimited connection.

A family of product solutions

Our solutions are a series of unique and ground-breaking hardware and Apps that enable individuals and businesses to connect and communicate with each others across cultures wherever they are in the world and in different languages

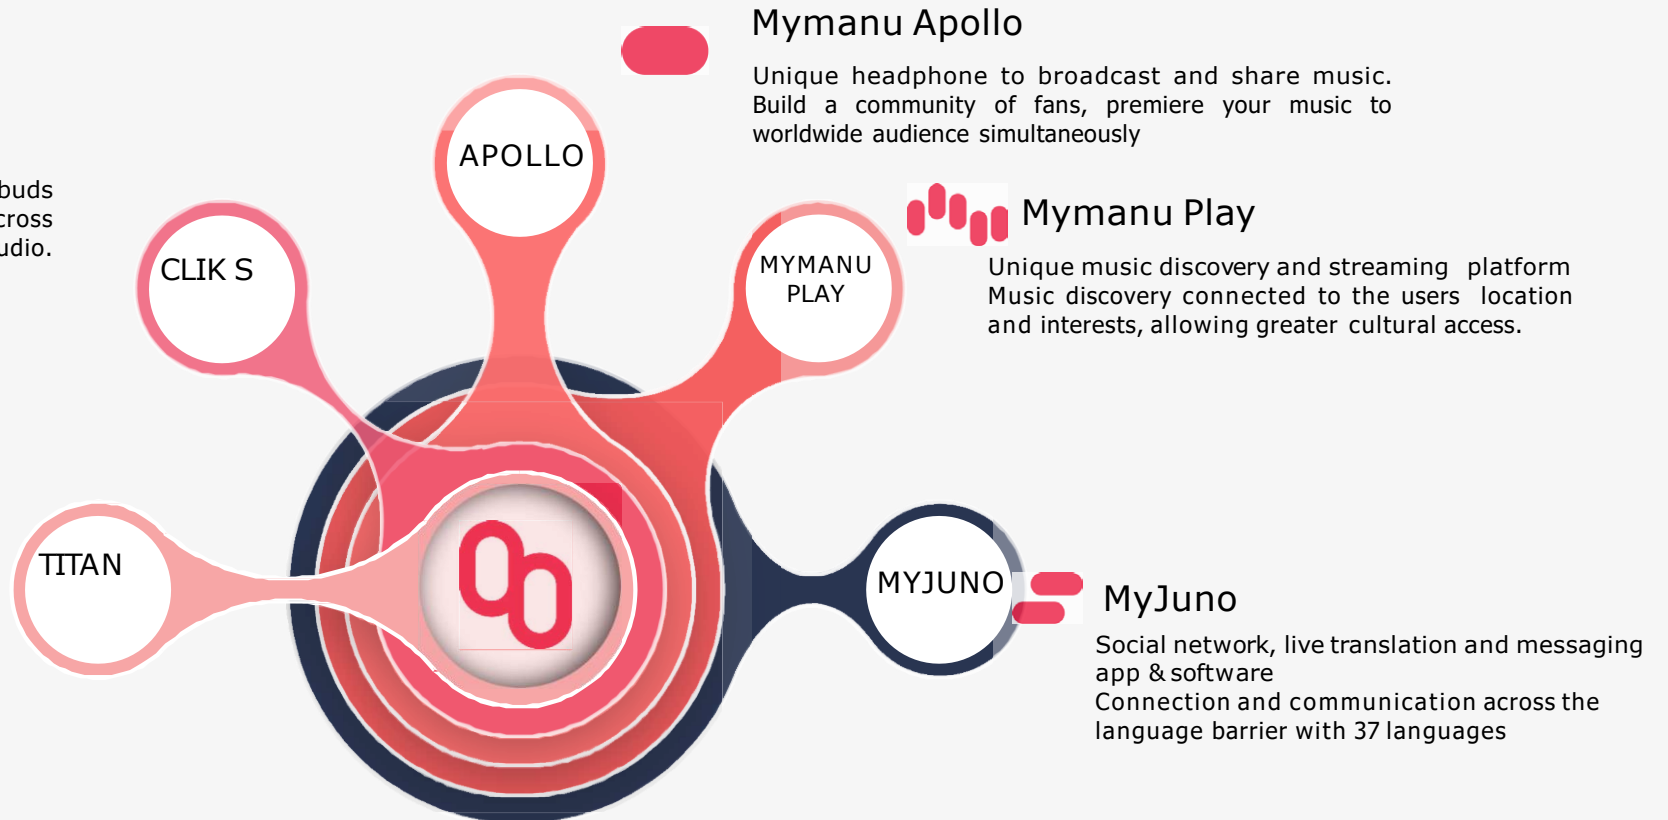

MYMANU CLIK S

Versatile live translation earbuds
Immersion in local cultures and business across
languages with wireless HD audio.

TITAN

IN PARTNERSHIP WITH DEUTSCHE TELEKOM

Unique remote telecommunications earphones
Technology helping connect people and allow
them to be free and comfortable wherever they
are, without a mobile phone always to hand.

CHALLENGES

▲ Business connectivity

How best to implement IoT to achieve operational goals such as reducing costs, improving efficiency, increasing safety, supporting compliance or pushing product innovation

▲ Human connectivity

How best to connect people, share experience to empower people, improve inclusion and fight discrimination

▲ Language barriers

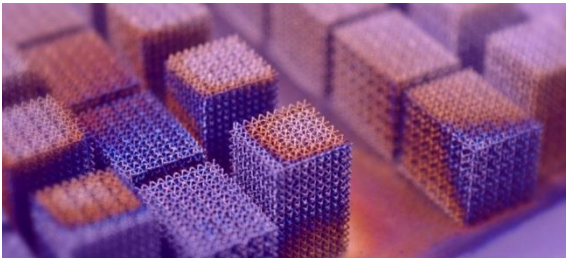

7k+ languages and 100s of cultures worldwide. 50%+ don't speak a 2nd language affecting international trade, growth, innovation, recruitment, inclusion...

-  Passive noise cancellation to minimize surrounding noise whilst feeling safe
-  Bluetooth V5.0
-  Up to 30 hour of battery life with own charging case
-  3 ear tip sizes for best secure fit

Award winning, translation earbuds

Competitive advantage

Clik S is the world's first true wireless earbud with live language translation. It competes, at similar prices, with true wireless products/brands of similar quality but which do not have the live translation function, smarter technology, higher performing components, or music software.
